

**Dearest \_\_\_\_\_ !**

I wish you a Merry Christmas and a Happy New Year!

There is a lot of snow here on the North Pole as always. Yesterday I walked through the woods to check if everything was ready for the holidays. There is a cheerful Christmas bustle. Animals and birds are always so happy about my arrival. Of course, I dress up a Christmas tree for them and bring treats: dry mushrooms, berries, and nuts!

Before we equip my wonderful sleigh and go on a trip, we prepare gifts!

I wish you health and happiness. I wish you Happy holidays and a whole bag of joy. I will decorate your yard and windows with fluffy snow, draw frost patterns on the windows. When you see it, remember me!

**Merry Christmas!**
