

Merry Christmas!

Dear _____ ,

Time flies so fast! Just a few days left and before you know it, it's Christmas! It also means I will soon set off to my great adventure with my sleigh packed with presents for all the kids who made it to my Nice list this year.

I'm glad that you always make it to my Nice list. I always hear wonderful things about you from your parents and your teachers. You're kind and you love to share. I think that's incredible. Keep it up!

My assistants showed me your Christmas list this year. Don't worry because Mrs. Claus has been preparing lots of cookies and milk so our elves in the factory have energy to build all those things you like. I'm so excited to place them under your tree.

I better run now. We're getting very busy here in our shop. We have so many gifts to make and wrap for all the good kids out there like you. Have a magical Christmas!

Love,

Santa Claus
